

10 TH DECEMBER , 2023

**IDA KCB**

**THE**

**HON. SECRETARY'S**

**REPORT - 2023**

# Dr Subhasis Ghosh

I hope my annual report finds you and your family well.

This year saw few exciting and novel programs in KCB , but before discussing that, I think I need to share some important information with you .

I have handed over all the ( 5 in total) fixed deposit original certificates & papers to our treasurer- Dr Aditya Mitra through office staff Mr Anil Patra on 27.12.2022.

I, in the capacity of Hon. Secretary of the branch sent the elected executive committee details to the state branch on 02.01.2023.

Like each year, our annual conference ( for the year 2022) , in which we always take pride, was a resounding success. In this conference, for the first time ever, we had a lot of non-KCB registration. The Pre conference on 13th January,2023 saw 19 participants on implant related topic and 35 participants on endo topic .the main conference on 14 th and 15 th january also saw a good number of participaton. The best part was on the first day 34 non members and on second day 15 non members attended . We have never seen so many non member registrations before.

This year's Picnic was held at Breathing Earth, Usthi on the 5th February 2023. We had some wonderful time with colleagues, friends and their family

This year we had a very successful Women's day celebration on 5 th March at the Punjab club. We had four acclaimed guests who graced the occasion with their presence. Ms Piyali Basak ,the famous mountain peak conquerer ,was one them and her inspiring speech made us all spellbound.

We chose to do something Novel this year to increase participation in KCB, we organised a Monsoon Drive and DINE meet at the Uluberia Azad Hind Dhaba . Organised by our Young Brigade of Dr Rit Choudhary ,Dr Shiv Bhusan Pandey , Dr Biswajit Panda and guided by Dr Sankalp and others , it was a meticulously organised programme which turned out as a car rally of sorts on the 23rd of July 2023 .It was a wonderful outing and experience

We had five EC meetings and participation was good.

I am thankful to our CDE team for always being watchful about the need of our members and find the best people in the field to bridge the gap in knowledge. The details of the report is attached separately.

CDH team is always the most active bunch of members. I sincerely thank each and every member of the team for their service to the underprivileged people. Seniors like Dr PJ Mustafi and Dr GR Ashok have been leading from the front throughout the year. I earnestly request every member to help Dr Ayan Majumdar to run our adopted school, the Future Hope School for street children. If any paedodontist and orthodontist could kindly lend a hand, it would be great. A detailed Cdh report is attached .

We do not have an annual conference for this year, as we are hosting IDA National Conference in February 24 in Kolkata, in accordance with law laid out by IDA HO. Many of our branch members are involved in different and important capacities in the conference.

Things we could have done differently and challenges for the future ,

Find a way to involve as many members as possible in KCB events.

Find a way how to include young potential members for future leadership.

 I wish each and every member a very happy and prosperous year 2024
